Professional Summary

Full-stack developer with 8+ years of hands-on experience across the entire development lifecycle, building **responsive web applications**. Strong front-end expertise in **JavaScript (ES6+), React.js, HTML5 and CSS3**, with back-end development experience in **Node.js, Java, Lua, PHP** and **RESTful API-driven systems**. Currently specializing in **modern full-stack JavaScript development** through project-based advanced training, with hands-on experience in the **React ecosystem (Redux, TypeScript, Next.js, Jest, React Testing Library)** and **Node.js/Express.js**, including **PostgreSQL, Redis, JWT authentication** and **WebSockets**. Proven background in agile workflows, collaborative development, and technical problem-solving. Open to opportunities where I can contribute to modern web applications while continuing to grow as a full-stack JavaScript engineer.

Core Skills

Front-end Development: React.js, JavaScript (ES6+), TypeScript, Next.js, Redux, PWA, Material-UI, Tailwind CSS, CSS3, HTML5, JQuery, Bootstrap

Back-end Development: Node.js, Express.js, Lua, Java, Spring Framework, PHP, SQL, Bash Scripting, C

DevOps & Deployment: Docker, Kubernetes, Jenkins

Security & Authentication: Session Auth, JWT Auth

Version Control: Git, SVN

Data Formats & APIs: RESTful APIs, WebSockets, JSON, AJAX, XML, SVI

Testing: Unit Testing, Jest, React Testing Library, JUnit, Robot Framework

Development Tools & Others: VS Code, Eclipse, PhpStorm, Sublime, Codecharge Studio, SQL Clients, Postman, Browsers' Web Developer Tools, Balsamiq (Mock-ups), Wireshark, CMS, Agile

AI-Augmented Development: ChatGPT, Claude, GitHub Copilot, Microsoft Copilot, DeepSeek

Work Experience

Freelance Climbing Instructor & Software Development Transition

November 2022 – Present

- Providing climbing instruction on a freelance basis, during career transition period.
- Pursuing **advanced full-stack JavaScript development training** (Zero to Mastery Academy), **project-based**, in **modern React ecosystem (Next.js, TypeScript, Redux)** and **Node.js/Express.js** environment.
- Developing projects full-stack, incorporating **RESTful APIs, WebSockets, Redis and PostgreSQL databases, JWT authentication, state management (Redux), testing frameworks (Jest, React Testing Library), responsive design, Material-UI, Tailwind CSS frameworks, PWA logic and Docker**.

Senior Technical Specialist

[Nokia](#) | Athens

December 2021 – October 2022

- Developed back-end components of Altiplano Controller, an open software GUI platform connecting other Nokia's software units via **RESTful APIs**.
- Implemented **Java-based microservices** feature with **JUnit** testing, loaded on a **Docker** container and deployed on **Kubernetes** infrastructure.
- Managed **PODs** configurations and orchestrated software interactions within Kubernetes environment.
- Experience in Intent development logic, microservices, Cloud based solutions, DevOps operations, Kibana search engine and Postman request engine.

Software Engineer

[Nokia](#) | Athens

September 2016 – December 2021

- **Full-stack development** of WebCT (2016-2021), a software that provided a GUI to administer X-Haul microwave products. Led back-end development of WebCT in **Lua** and DB handling with **Lua-Sqlite3**.
- Implemented WebCT GUI in **JavaScript, jQuery, HTML5, CSS3**, and **Bootstrap** framework.
- Side project development of ASLM (2018-2021), an app that produces licenses for all X-Haul products, in **Java** with **JUnit** testing in the back-end and engineered **React-based components** in the front-end.
- Involved with the full circle of a feature's production. Creation and reviewing of feature's code, software architectural designs, Low Level Design, mock-ups, CuDo documents. Developing at least one feature per release while following a biannual release schedule.
- Peer reviewing of Code, Use Cases, Test Strategy and Test Cases.
- Applied full stack Unit Testing and debugging of code.

Software Engineer

[Nokia](#) | Athens

June 2015 – August 2016

- **Full-stack development** of the FMANG application, a comprehensive monitoring and configuration management system for Nokia's FlexiNG product.
- Contributed to back-end development of new features released on a biannual schedule in **Java** and **Java EE Development toolset (JSF/Primefaces, Spring, Hibernate, Maven, Tomcat, Jenkins, Junit)**, while maintaining code quality through peer reviews of code.
- Development of the front-end in **JavaScript, HTML, CSS**.
- Led complete GUI redesign initiative after company's rebranding and resolved with the help of the team a critical system-wide bug affecting application stability.

E&V Tester

[Nokia](#) | Athens

October 2014 – May 2015

- Managed **CI/CD** Test Suite of 400+ test cases for Nokia's LTE network gateway (FlexiNG).
- Implemented automated testing using **Robot Framework** with daily CI/CD reporting.
- Enhanced testing coverage by developing new test cases and improving existing ones.

Web Programmer/Developer

[Cybertechnics Interactive Communication LTD](#) | Athens

December 2012 – January 2014

- Full-stack development of Modus CMS using **PHP, MySQL** in the back-end and **JavaScript, HTML** and **CSS** in the front-end.
- Managed back-end administration and development of CMS' modules and components.
- Updating and debugging CMS' code and executed database operations, upon customers' requests.
- Implemented RAFM (Restricted Access File Manager) filesystem and integration of Ajaxplorer GUI into Modus CMS.

Education

Zero To Mastery Academy

[zerotomastery.io](#)

October 2024 – Present

Attending JavaScript Full-Stack Web Developer Career Path with strong focus on modern JavaScript development: **JavaScript(ES6+), React.js, Redux, TypeScript, Next.js, PWA, Jest, React Testing Library, Node.js** with **Express.js, Session Management, JWT, PostgreSQL, Redis, Machine Learning API** and **Docker**, by building web apps, incorporating all these technologies.

University of Piraeus

Piraeus

September 2004 – October 2011

University degree – Bachelor in [Digital Systems & Technology Education](#) | Computer Science

Stockholm University and KTH joint department

Erasmus Exchange Student Program | Knowledge Management

January 2009 – June 2009
